D.O.J. -

This needs to be done with. The government should seriously have more important things to do than interfering with private enterprise. Get off their backs for the sake of the public, and stop spending tax dollars to support vindictiveness on the part of MSFT's rivals. They have done nothing but help our economy and our daily lives. Microsoft touches all our lives every day. This is America, remember? "Land of the free". Thank-you
